The SWSTRIP5M is a IP65 LED RGB strip. This is not just a normal LED strip light, as the SWSTRIP5M is controlled with your SmartLife App. The LED strip integrates with sound and changes colour to the rhythm of the music or sound. You can also adjust the colour of the LED's to your liking or scene. The App also allows you to set scenes and allocate a timer for specific applications. The LED strips are also dimmable through the App to set a softer tone even in the colour setting.

IP65 Waterproof for Outdoor Lighting
