MTS22
Smart Programmable Timer

The MTS22 Smart programmable timer is specifically designed for users to gain full control of their timer via a smart device. This timer is equipped with Wi-Fi connectivity, allowing users to utilize the “Major Tech Hub” Smart App for remote monitoring and control. It adheres to Wi-Fi 802.11b/g/n standards for seamless data communication. When installing the smart timer, ensure that this is done by a qualified professional in accordance with South African regulations and making sure it is placed in an appropriate environment with an ambient temperature range of -25° to +55°. The relative humidity should be kept below 75%.

Function	Range
Rated Frequency	50/60 Hz
Rated Current	30A
Power	4400W (Resistive Load)
Rated Voltage	110V/230V AC
Approvals	IEC/SANS / ICASA / LOA
Voltage Range	100 - 240V AC
WIFI	Parameter 802.11B/G/N, ONLY SUPPORTS 2.4GHZ NETWORK, NOT SUPPORTED ON 5GHZ NETWORK
Operation Temp.	-25◦ to +55◦

Features

- **Smart App Compatibility:** Easily access advanced features by downloading the free “Major Tech Hub” Smart App.
- **Energy Usage Insights:** Gain immediate access to both historical and real-time energy consumption data via the smart app.
- **Advanced Timing Options:** Enjoy precise control over your devices with versatile timing options, including Countdown, Schedule, Circulate, Random, and Inching modes.
- **DIN & Samite/Mini Rail Compatibility:** Designed to be compatible with both 35mm Din Rails and Samite/Mini Rails for flexible installation.
- **Dual Mode Connectivity:** Stay connected with the choice of Wi-Fi and Bluetooth modes. If Wi-Fi is unavailable, the smart timer seamlessly switches to Bluetooth (note that Bluetooth range is limited).
- **Child Lock Feature:** Ensure safety and prevent accidental disconnection by activating the child lock feature, which restricts manual switching off of the socket.
